Overview

Welcome to the World of Proteus

Thank you for purchasing the E-MU Proteus Legacy. This sound set is a Kontakt library and requires the free Kontakt Player (<https://www.native-instruments.com/>) or the full version Kontakt. Download the Proteus_Legacy_Library.zip files to your computer and uncompress the file. Install the library and use the included serial number to activate the software.

The E-MU Proteus sound modules revolutionized the world of digital music performance and composition. The Proteus product line was the first generation of the Proteus family that includes Proteus 1 XR Pop/Rock, Proteus 2 Orchestral, Proteus 3 World, Planet Phatt The Swing System, Orbit The Dance Planet, and Vintage Keys Classic Analog Keyboards

This Kontakt library was designed and produced by the original E-MU sound and graphic designers. Starting with the original waveforms, Kontakt instruments were mapped and programmed to match the hardware modules. The powerful script programming integrates the hardware functionality to the screen for the same great look and feel as the modules.

Proteus Legacy is designed for Kontakt Player and the full version of Kontakt. The instruments are seamlessly integrated to be controlled by all Native Instruments NKS hardware.

Kontakt View

The image displays the Kontakt software interface, showing six digital sound modules stacked vertically. Each module has a unique color scheme and a set of controls including Digital Sound Factory, TONE, Q, SHAPE, IMAGE, EFFECTS, ARP, and SOLO.

- 000 - Stereo Piano**: Dark grey interface. Controls include Digital Sound Factory, TONE, Q, SHAPE, IMAGE, EFFECTS, ARP, and SOLO. Memory: 0.59 MB.
- 000 - Solo Cello**: Dark grey interface. Controls include Digital Sound Factory, TONE, Q, SHAPE, IMAGE, EFFECTS, ARP, and SOLO. Memory: 0.52 MB.
- 000 - Troubador**: Dark grey interface. Controls include Digital Sound Factory, TONE, Q, SHAPE, IMAGE, EFFECTS, ARP, and SOLO. Memory: 75.29 kB.
- 000 sbs - 1st Bass**: Purple interface. Controls include Digital Sound Factory, TONE, Q, SHAPE, IMAGE, EFFECTS, ARP, and SOLO. Memory: 8.57 kB. Logo: *Planet Phat The Swing System*.
- 000 bas - Membrane**: Yellow interface. Controls include Digital Sound Factory, TONE, Q, SHAPE, IMAGE, EFFECTS, ARP, and SOLO. Memory: 91.53 kB. Logo: *Orbit The Dance Planet*.
- 000 apo - PlusDXep**: Dark grey interface. Controls include Digital Sound Factory, TONE, Q, SHAPE, IMAGE, EFFECTS, ARP, and SOLO. Memory: 0.65 MB. Logo: *VINTAGE KEYS CLASSIC ANALOG KEYBOARDS*.

Functionality

Master Controls

Main Toggle Button - A/E/I - B/F/J - C/G/K - D/H/L

The Main Panel includes a toggle button that controls what screen is active. The toggle advances between the A-D, E-H, & I-L controller groups.

The effects toggle button switches between the effect types. The green LED indicates the active set of controls.

A-D Filter - Tone, Presence, Shape, Image

E-H Amplitude Envelope - Attack, Decay, Sustain, Release

I-L Keyboard/Effects – Dyn 1, Dyn 2, FX A, FX B

Volume Control

The master volume of the instrument.

A-D Controls

Tone - Filter - Filter cutoff amount

Presence - Resonance amount.

Shape - Filter Envelope Amount

Image - Stereo image

Effects Button

Activates effects settings.

ARP Button

Activates arpeggiator settings.

Solo Button

Activates solo settings.

Amplifier Envelope Panel

E-H Controls

Attack - Amplifier attack time

Decay - Amplifier decay time

Sustain - Amplifier sustain time

Release - Amplifier release time

Keyboard/Effects Amount Panel

I-L Controls

Dyn 1 - (Dynamic 1) Velocity to Amplifier

Dyn 2 - (Dynamic 2) Velocity to Filter Cutoff

FX A - Reverb Send

FX B - Delay Send

Effects Controls

Effects Reverb Panel

Effects Toggle Button

The effects toggle button switches between the effect types. The green LED indicates the active set of controls.

Reverb: Predelay - Size - Stereo - Amount

Delay: Feedback - Time - Pan - Amount

Chorus: Depth - Speed - Unit - Amount

Reverb Controls

Predelay - Time between the end of the initial sound and first reflections.

Size - Room size.

Stereo - Positioning of reverb reflections.

Amount - Amount of reverb signal.

Effects Delay Panel

Delay Controls

Feedback - Delayed signal sent back to the delay line

Time – Tempo synced. Separates the frequency of delay signals.

Pan - Positioning of the delay signal

Amount - Amount of delay signal

Effects Chorus Panel

Chorus Controls

- Depth - Amount of pitch modulation
- Speed - Frequency of the pitch modulation
- Unit - Separation of the pitch modulation
- Amount - Amount of chorus signal

Arpeggiator Controls

Arpeggiator Panel 1

Arp Toggle Button

The Arp toggle button switches between the effect types. The green LED indicates the active set of controls.

Arp 1: Mode - Duration - Rate - Swing

Arp 2: Octave - Strike - FX Rate - Velocity

Arpeggiator 1 Controls

Mode: Selects between four modes.

<Off> Arpeggiator off.

<On> Arpeggiator on key down. Off on key up.

<Hold> Latch played keys - new played keys take priority.

<Hold+-> Latch all played keys - new played keys will be added.

Duration: Modifies the duration of the arpeggiated MIDI notes in percent.

Rate: Tempo synced. Sets the step rate of the arpeggiator.

Swing: Offsets step values to swing or push the feel of the steps.

Arpeggiator Panel 2

Arpeggiator 2 Controls

Octave: Sets the octave range upward or downward.

Strike: Sets the number or repeats for each note.

FX Rate: Controls the rate (time) parameter of the effect.

Velocity: Enabled - velocities derived from rhythmic grid. Deactivated - played velocities scaled by rhythmic grid.

Steps

Controls the number (2 - 32) of steps of the rhythmic pattern.

Rhythm Grid

The lower right-hand corner displays the amplitude amount of each step in the arpeggiator pattern. Step values are set with the mouse and can be returned to 0 using CTRL/Click.

Select Note Order Menu

The menu contains 16 pattern choices. As Played will follow what is played. This works very nicely with <Hold> latch all played keys and <Hold+-> latch all played keys

Solo Controls

Solo Controls

Solo - Solo mode off/on

Legato - Legato mode off/on

Glide - Glide off/on

Rate - Glide rate

NKS Compatibility

Designed for Komplete Kontrol Hardware and Software

The Proteus Legacy library is designed to work with all NKS hardware enabled products. NKS seamlessly integrates the hardware and software allowing control in both directions. Software parameters are displayed on the hardware and mapped to the controllers. Sounds are tagged with category names to quickly locate the desired sound.
